DO YOU EXPORT?
SAVE TIME AND MONEY WITH ECERTIFY!

In international trade, a Certificate of Origin (CO) is a key document for the verification of the origin of goods being exported. The origin of imported goods is examined by almost every country in the world to determine tariff treatments or in other cases, to see if the goods can be legally imported. The CO can be required by the customs administrator, importers, freight forwarders and even banks for approving letters of credit.

A BRAND NEW SERVICE PROVIDED BY THE BOARD OF TRADE OF METROPOLITAN MONTREAL!

The Board of Trade of Metropolitan Montreal (BTMM) has been certifying a variety of documents including certificates of origin for many years. eCertify is the next generation solution, enabling exporters and freight forwarders to process electronic Certificates of Origin from their desktops – saving time and money, while increasing compliance and productivity. eCertify is the market leading solution, turning the existing paper-based process for stamping and signing of trade documents into a streamlined electronic system – providing real value in cost savings and efficiency gains. Key information is securely stored, easing the process for repeat filing on future certificates.

ISSUING YOUR CERTIFICATES OF ORIGIN HAS NEVER BEEN THIS SIMPLE AND AFFORDABLE!

"We are very pleased that the Board is able to issue a certificate of origin electronically. I received my certified documents almost immediately, without having to leave my office. The platform is easy to use and guides us every step of the way. It's a great experience! Because it's so user-friendly, we will count on the eCertify service to have our documents ready for export."

- André Abi Raad, Production Manager, Intermiel
